Approved For Release 2000/09/14 : CIA-RDP89B00551R000600330010-8

Request that emphasis be placed on visual observations by pilot particularly in Afghanistan. Specifically, it is desired where possible that information be furnished on airfields containing possible Soviet aircraft and on new or improved road systems leading south into Afghanistan from the Soviet border. This request is not intended to affect or vary flight route as planned but it is submitted in the event that some of these targets will come under observation during the mission.
